

Leigh Harbour Valley Society

Donation Form

Since 2006, members of the Leigh Harbour Valley Society Inc. have been restoring an area of coastal bush near Leigh Harbour. With the assistance of Auckland Council, DoC and many volunteers, we have successfully fenced all the catchment areas between Pakiri Rd, Cape Rodney Rd, Mt Pleasant Drive and Tenetahi Rd and planted more than 6000 native seedlings. The project has expanded over the years. We are continuing to control weeds on both private and crown land and our trapping and baiting lines now cover an area of over 160ha.

Everyone in the surrounding area benefits from the increase in native flora and fauna, and we need your help to ensure the ongoing success of this project.

By supporting the Leigh Harbour Valley Society, you will assist us to continue our restoration efforts.
